

Green Tips Guide

1. Turn off lights and electronics when not in use.
2. Use reusable water bottles and shopping bags.
3. Reduce meat consumption to lower your carbon footprint.
4. Walk, bike, or use public transport whenever possible.
5. Plant trees or maintain a home garden.
6. Support local and sustainable brands.
7. Recycle and compost your waste.
8. Save water with low-flow taps and shorter showers.
9. Insulate your home to save energy.
10. Educate others about sustainability and eco-friendly habits.
