Carbon Reduction Checklist

[ ] Switch to LED lighting throughout your home or workplace.

[ ] Set thermostats to an energy-efficient temperature.

[ ] Install solar panels or subscribe to green energy providers.

[ ] Unplug chargers and appliances when not in use.

[ ] Use a clothesline or drying rack instead of a dryer.

[ ] Carpool, use public transportation, or switch to electric vehicles.

[ ] Conduct regular home energy audits.

[ ] Buy second-hand or upcycled items to reduce manufacturing demand.

[ ] Avoid single-use plastics whenever possible.

[ ] Offset your carbon footprint through verified programs.
